Where it is reasonably foreseeable that trainees, members of the public, contractors, etc., are or may be affected by the school activities being carried on within the school boundary or otherwise, the Governing Body will make the necessary information, instruction, training and

supervision available to ensure the safety of those affected. As an education provider which must set standards by example for its pupils, this commitment is seen as especially important.

ORGANISATION AND RESPONSIBILITIES FOR HEALTH, SAFETY AND WELFARE

In order to ensure that health and safety issues are dealt with in accordance with our establishments safety policy, the following organisational structure has been approved by the Governing Body. Duties and responsibilities have been assigned to Staff and Governors as laid out below.

1. Governing Body

The Governing Body will comply with any directions issued by the LEA concerning the health and safety of persons on school premises or taking part in school activities elsewhere. The Governing Body is responsible for health and safety matters at a local level. They accept that the delegation of funds from the Education Department carries with it some power of control and hence increased accountability. Where the spending decisions are controlled by the Governing Body, they accept a share of the responsibility for the way in which health and safety issues are addressed. However, the LEA will be informed of any issue which has significant health and safety implications and which cannot be resolved satisfactorily without LEA involvement.

The Governors appreciate that they can only work within their allocation of the total education budget determined by County Council members and that they will only be accountable for deciding how the budget within their control is to be spent. The Governing Body has established arrangements for ensuring the requirements of this policy are properly implemented and that the policy remains effective and appropriate.

2. Headteacher

Overall responsibility for the day to day management of health and safety in the school rests with the Headteacher. As manager of the establishment and of all the activities carried on within it, the Head will advise Governors of the areas of health and safety concern which may need to be addressed by the allocation of funds. Matters requiring particular consideration by the Headteacher will include:-
